Located in the Schenectady/Rotterdam/Duanesburg, NY area, Crossroads Center for Children provides a range of programs for children aged two to twelve. Our journey began as an integrated, center-based program for preschoolers with autism, and we've since expanded to serve children up to twelve years old. While autism remains our clinical specialty, we welcome children with various disabilities who can benefit from our behaviorally based educational approach.

As a SLP at Crossroads, you'll work alongside a talented team of special educators, behavior analysts, occupational therapists, physical therapists, and teaching assistants to deliver exceptional ABA services in a school setting. You'll join a team of five skilled speech therapists in this full-time position (35 hours per week), which follows a school calendar, including a six-week summer program.

We're seeking enthusiastic, committed professionals who are eager to help students reach their full potential.
